Host Family Needed in the South West

We are looking for a caring family in Bunbury and surrounding areas to welcome an individual with disability into their home.

- Being a Host Family means offering connection, stability, and everyday support in a safe and welcoming home. It can make a real difference in someone's life, helping them feel safe and included. It can also bring warmth and purpose to your home. If your children have moved out, it may help with feelings of an empty home. If your children are still at home, it can help them learn understanding and empathy.
- To express interest, please email Kellie in the Bunbury office.
